

CONTAINERS & ACCESSORIES

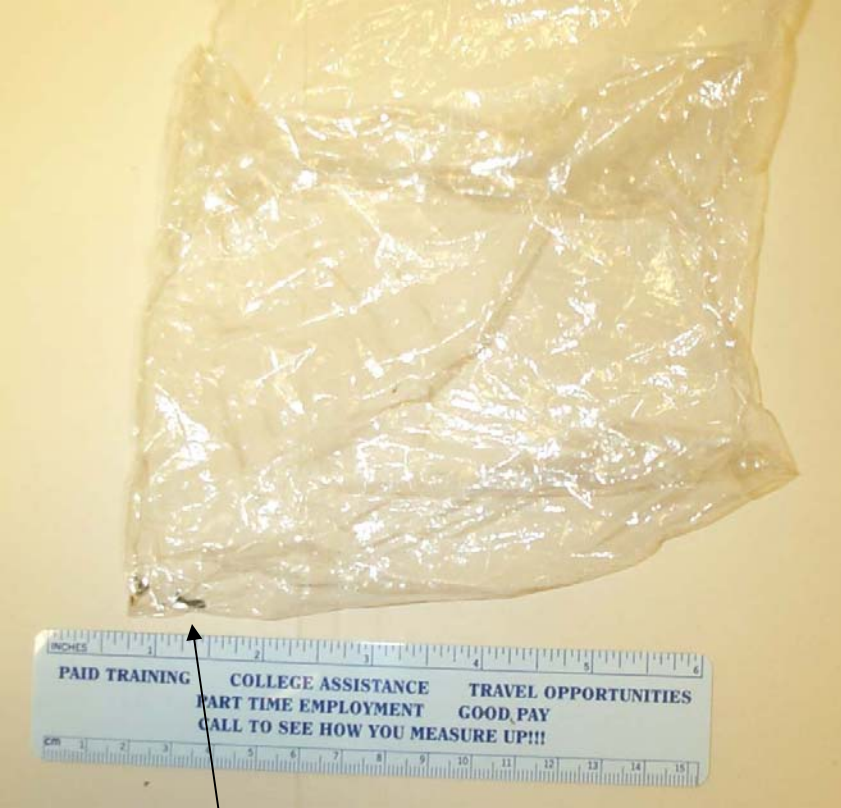

That you may find associated with
drug use.

Many times we will find drugs or drug paraphernalia in a student's backpack.

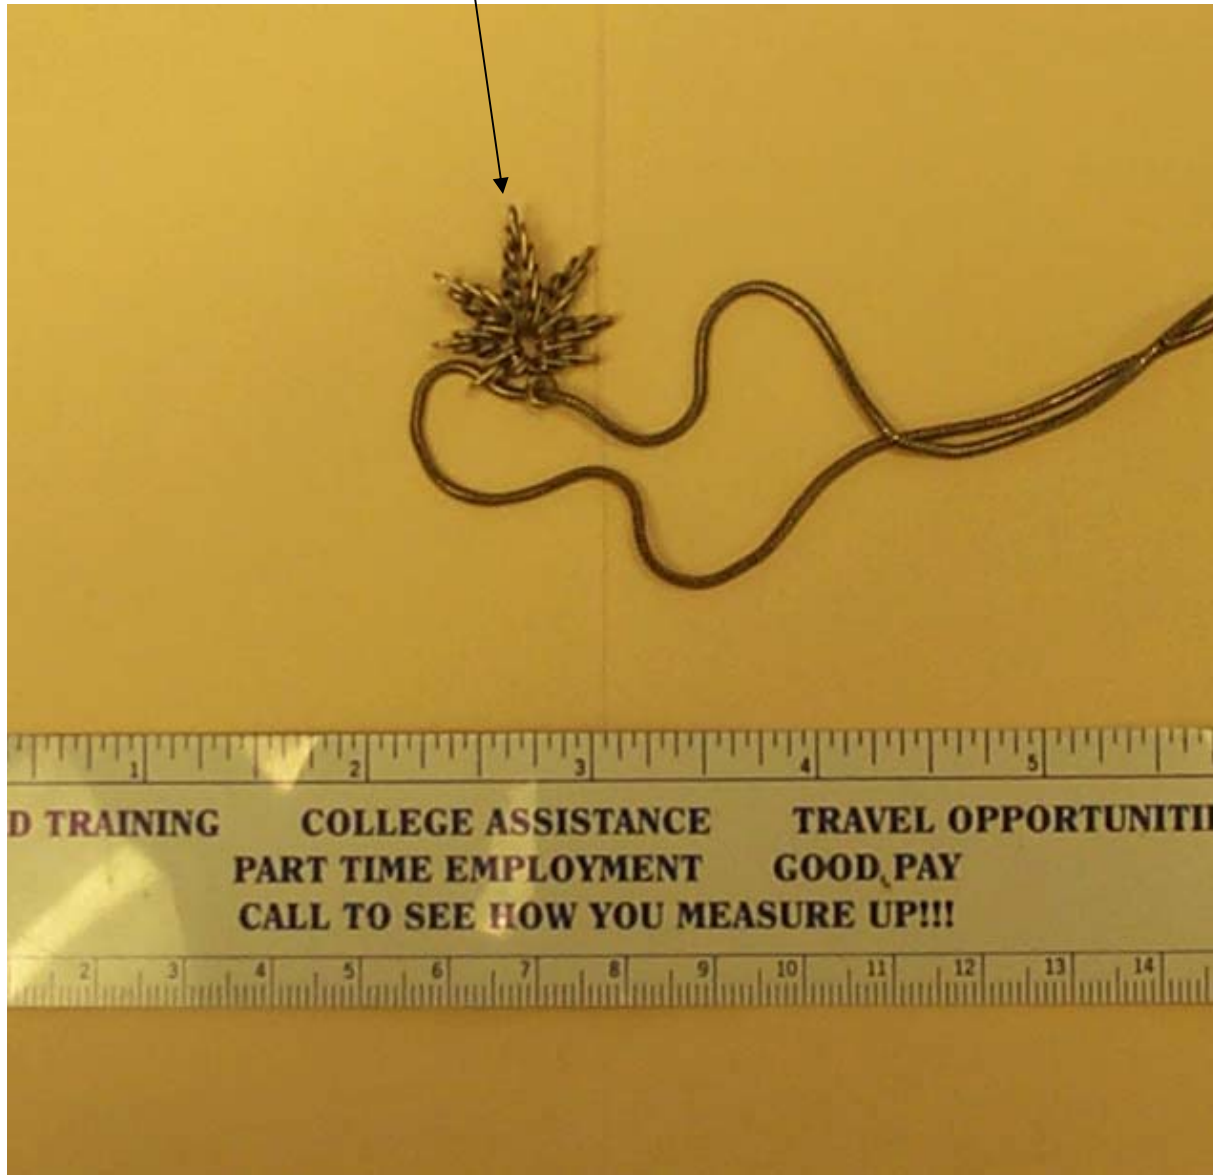

Almost anything can be used to hold drugs. Here are some of the more popular methods.

Notice the small amount of residue left in both of these examples.

This necklace has a marijuana leaf for a pendant.

Visine or other eye drops are common to find with drug users particularly marijuana users.

Visine bottles have also be used to hide other drugs such as GHB.

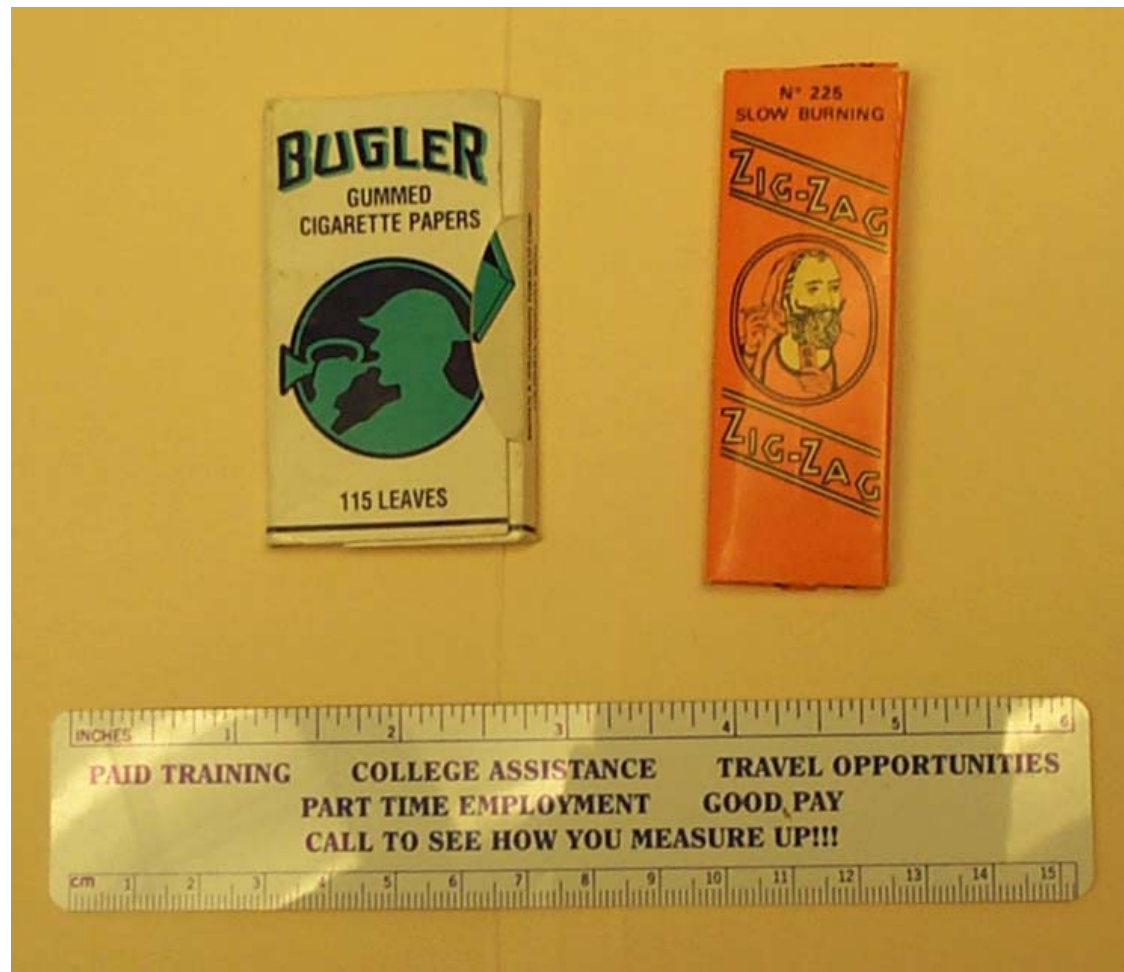

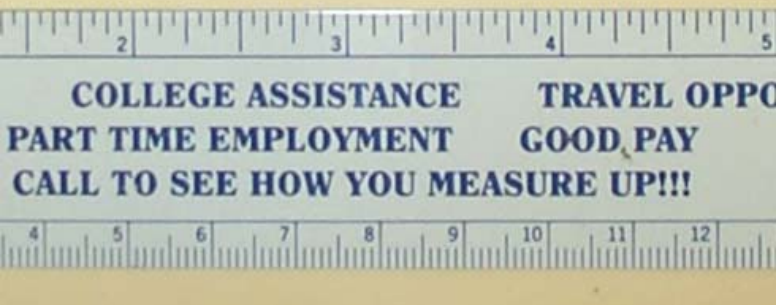

If you are going to smoke a drug you will need some kind of flame.

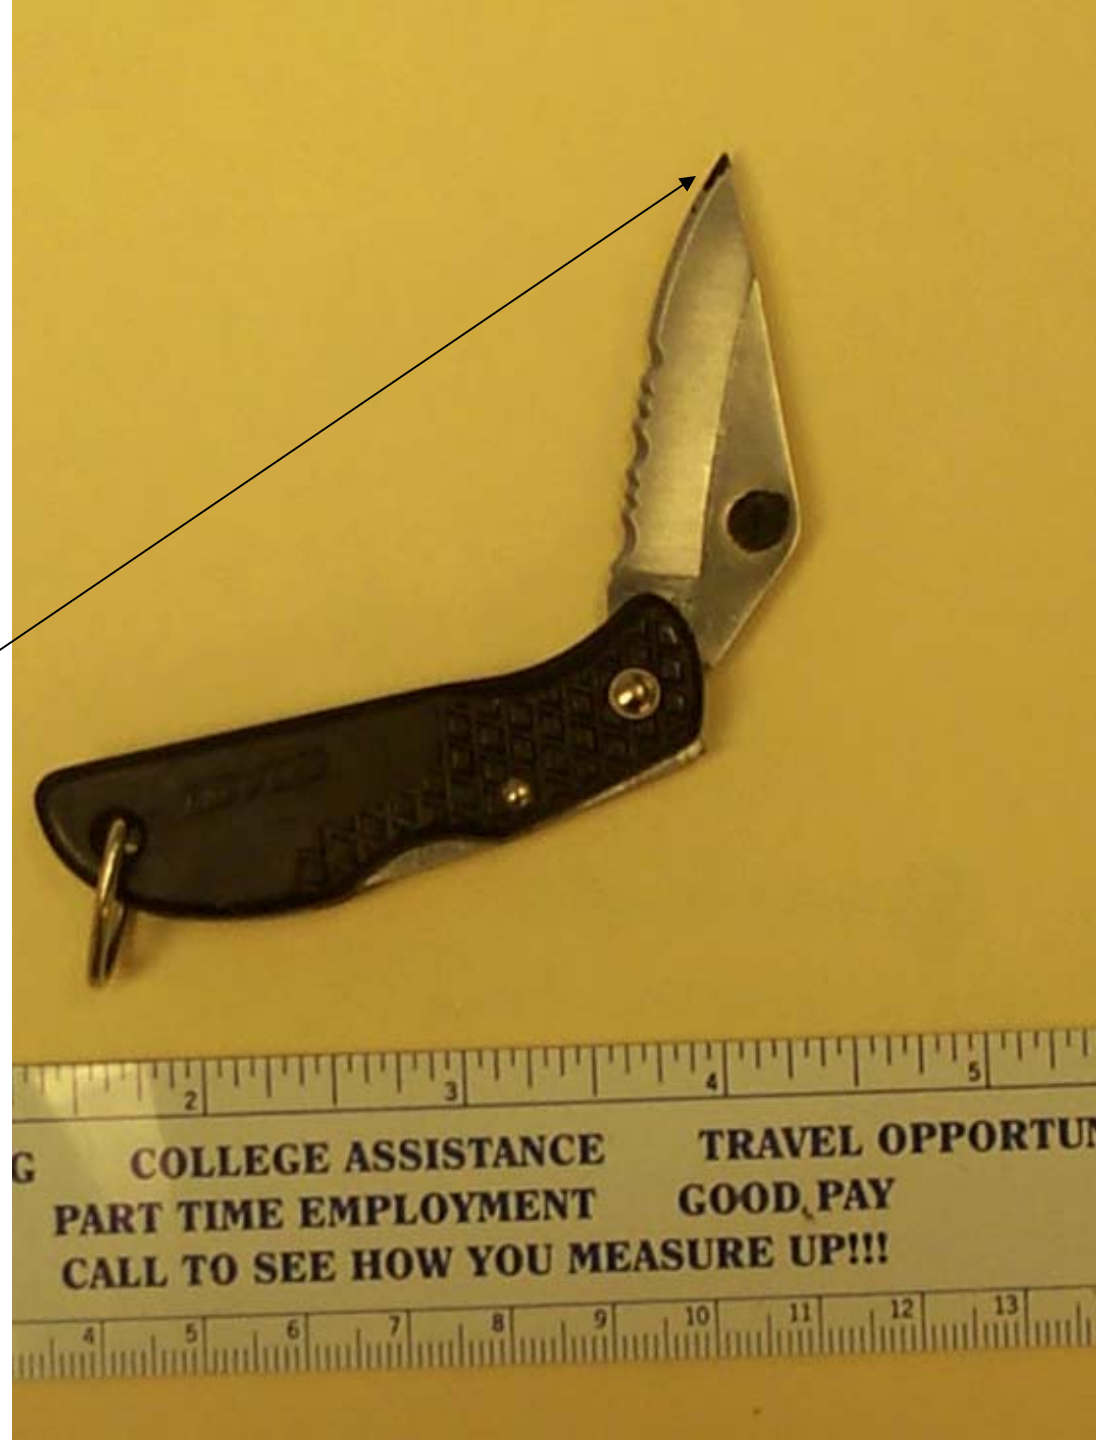

Why not use a lighter with a marijuana leaf on the case?

You may find rolling papers. Maybe for tobacco maybe for marijuana, both violate school policy.

If a person is using a pipe to smoke a drug they may have some kind of a cleaning tool. A cleaning tool could be almost anything. In this example the cleaning tool is a small pocket knife. Notice the black residue on the tip of the blade.
