Mrs. Ellis

~ FROG EXPEDITION ~

This is it!! It is our big week to kick off our very first expedition at Summit School!! The kids will have SO MUCH frog exploration time this week! We will sing, play, read, paint, and draw to learn about frogs.

Our expedition is structured to start with a general understanding of frogs and then focus on more direct and specific topics to help us better understand what frogs are. It is sure to be a great week!

Please contact Mrs. Ellis if you have any questions, concerns, or thoughts about kindergarten or your children.

E-mail me - sellis@cvsd.org

OR

Stop in to see me before or after school.

OR

Make an appointment to conference with me.

OR

(if all else fails)

Call my personal cell number – 688-4379

I care very much about your children and the quality of care, instruction, and attention they receive from me.

~ Math ~

We have successfully completed chapter one in our Math Connects book. The chapter test will come home this week so you can see your child's performance results.

Thank you for helping your children complete all of the homework and practice that accompanies the chapter work.

The kids seem to enjoy math! They like the songs, technology, manipulatives, and workbooks! I think many of them like having homework too!

Thank You Volunteers!!!

I am so sorry; I missed a couple of GREAT volunteers when I listed them last week! Please Know that I DO appreciate all of you!! The kids benefit so much from having you help.

Lunch

I **am** encouraging all of the kids to eat more of their lunches. I know some kids just want to talk at lunch and then go out to play as soon as possible. Please let your child know how much of their lunch you would like them to eat. Some of the kids have HUGE lunches; if you feel that they are wasting too much, consider packing less.

"Mrs. Ellis wants you to know..."

I am having a great year!
