Fourth Grade Math	Third Grade Math
<p>We are working on Unit 4, learning about decimals to the thousandths place and metric units of length. <i>Please</i> continue practicing multiplication facts with your student.</p>	<p>We have completed the district assessment. Unit 4 focuses on multiplication and division as well as problem solving.</p>

## Expedition:

We are wrapping up our *Navigating the Sky* expedition. We have learned about the phases of the moon and visited the George Stahl Planetarium. Students are now synthesizing all they have learned and are beginning work on our final product. All Navigators will be involved in the creation of a 2009 calendar. More to come on this exciting project!

## Literacy

Students are putting the finishing touches on their myths and they are incredibly creative! All navigators should have picked out their mystery book for the new book project. Students are encouraged to use sticky notes to mark passages in their books while they read.

## AUCTION INFORMATION

Many of you know how important (and fun) the annual Summit auction is. We are brainstorming classroom project ideas to put up on the auction block. **We are looking for families that have woodworking skills who are willing to help out with some basic furniture designs.** Please contact your base camp teacher if you are able to help in this capacity. We are also taking suggestions for classroom projects; please send us any ideas you have!

## Upcoming Events:

- November 19-26—Early Release/Conferences—*Visit the Book Fair!*
- November 26—**Reading logs due**
- November 27-28—Thanksgiving Break
